About Me

Marketing Designer with **3+ years** of experience in performance marketing and **5+ years** in design. My main focus is **static ad creatives** that don't just look good but actually **drive results** — a distinction I've learned to see through experience. I also handle **basic animation** when a concept needs that extra push. **My strength** goes beyond visuals: I adapt copy to match the message and keep an eye on competitors and trends. Coming from a UI/UX background, I look at a creative more broadly than just the visual — and **I adapt quickly** to new products and teams, delivering results fast.

Hard skills

- Static Ad Creative Design
- Creative Concept Development
- Competitor & Trend Analysis
- Data-Informed Design Decisions
- Ad Copywriting
- Basic Motion/Animation
- AI-assisted Creative Production
- Illustration
- Hand drawing

Tools

- Figma
- Adobe Suite (Photoshop, Illustrator, After Effects)
- AI Tools (Midjourney, ChatGPT, Claude, Lovart etc.)
- Meta Ad Library

Education

Master’s Degree in Industial and Civil Engineering (Kharkiv National University of Civil Engineering and Architecture)

Sep.2016 — Dec.2021

Art School

2006 — 2014

Experience

Creative Marketing Designer (Nove8, Full-time, remote)

Jul. 2025 — Jul. 2026

- Developed static ad creatives for Meta Ads in the consumer subscription app category, from initial concept and visual research to final production.
- Created motion ad creatives using After Effects and AI tools to expand successful static concepts.
- Researched competitors, advertising trends, and visual approaches to generate new concepts for creative testing.
- Wrote and adapted ad copy in collaboration with copywriters and creative marketers, ensuring alignment between the message and visual concept.
- Iterated on creatives based on performance insights and testing priorities to continuously improve creative effectiveness.
- Collaborated with creative marketers and designers to produce, localize, and iterate multiple concepts and formats within a fast-paced testing workflow.

Graphic Marketing Designer (Freelance, remote)

Mar. 2023 — Dec. 2025

- Designed static ad creatives for Meta Ads across mobile apps in skincare, music, and lifestyle categories.
- Adapted visual concepts and messaging to different products, audiences, and brand guidelines while maintaining consistency within each project.
- Worked from team briefs and refined creatives through multiple feedback rounds with creative and marketing teams.
- Managed multiple parallel part-time projects, independently prioritizing tasks and meeting deadlines without daily supervision.
- Created additional brand and internal materials, including HR templates and supporting visual assets, when needed.

Product & UI/UX Design Experience

UI/UX & Web Designer (Freelance, UH Design, Dartc, Nerdfox Design)

Mar. 2021 – Jul. 2025

- Designed interfaces for technically complex products across SaaS, Blockchain, Web3, and DeFi, as well as consumer-facing digital platforms, quickly adapting to new industries and business domains.
- Partnered with clients and cross-functional teams to transform business requirements into user-centered design solutions aligned with product goals.
- Simplified technically complex products into intuitive digital experiences through product websites, landing pages, and user interfaces.
- Created user flows, wireframes, and high-fidelity interfaces, taking products from early concepts to production-ready designs.
- Integrated AI tools into design workflows to accelerate concept exploration, prototyping, and visual asset creation.
- Designed supporting visual assets, icons, and illustrations to enhance product usability and brand consistency.
